

PD212D

Power Drive® 1/2 HP Chain Drive Garage Access System

Rugged, reliable performance is what you'll get with the PD212D Power Drive® 1/2 HP Chain Drive garage door opener. It has a durable 1/2 HP motor and an industrial-strength chain drive, making it deliver smooth, steady performance and lifting power.

- 1/2 HP motor with industrial-strength, rugged chain drive
- Quick-install rail system provides faster and easier installation – assembles in 60 seconds
- Delivers 100 watts of light with adjustable light time delay
- HomeLink® compatible – the in-vehicle remote control system
- Includes two single-button remote controls and a multi-function control panel

SAFETY & SECURITY FEATURES

- The Protector System® safety sensors with Rapid-Snap® brackets project an invisible light beam across the garage door opening and automatically reverse the door if anything interrupts the beam while the door is going down
- Sensing technology will stop the door from closing if contact is made with a person or object
- Opener lights turn on automatically when The Protector System's infrared beam is broken
- Security+® anti-burglary technology assures a new code is sent every time the remote control is used
- PosiLock® theft protection assures that once the door is closed, it stays locked
- Manual release handle in case of power failure

WARRANTY

- 1-year motor warranty
