COMFORT AND SAFETY AT YOUR HAND

Proteco Open your world

Make your day
to day easier with
our application

The new interfaces
that allow you to
configure an automatic
opening schedule from
your smartphone

» Benefits » Manage your PROTECO systems from your smartphone

Wherever and whenever you need

While you are at work or travelling you can check the gate of your countryside house or the garage door at home.

Command from remote

Simple and user friendly! It allows you to open, close or stop the gate or the garage door of your house. While you are at work, you can open the door with your smartphone in case your children have forgotten the key.

Multi-end users

You can manage different users and allow your family members or your employees to open the door in complete autonomy.

Compatible

With **Alexa** and **Google Assistant**

Multi-device

Just one single application to control different automations: the gate of your house, the gate of the company or the gate of your holiday house.

+ Safety

You can set alerts when the door is opened while you are not at home or program warnings in case of failure.
